

NULIA WORKS

Making Microsoft Teams work for you, from home

IT'S ALL ABOUT GETTING USERS USING OFFICE 365

Nulia is a pioneer in Digital Enablement, getting users using Office 365. The Nulia Works platform drives a continuous system of measurement, personalisation, and engagement to guide users to attain, maintain, and use digital productivity skills. Nulia Works is built around Outcomes, which are sets of Skills designed to meet a business goal. By applying machine learning and artificial intelligence, Nulia Works meets each user where they are, with what they need, even at home.

Nulia is currently providing 6-months of free, no obligation access to a special edition of Nulia Works

The **Work from Home Starter Edition** integrates seamlessly with your current Microsoft licenses, and will get users using Teams quickly and confidently. This Starter Edition includes the Working from Home with Teams Outcome which is specifically designed to help end users and organisations succeed during these unique circumstances. Built around the core communication and collaboration functionalities found in Microsoft Teams, users can stay connected to their coworkers and projects from anywhere.

MEETING THIS GLOBAL CHALLENGE TOGETHER

We are all experiencing the impact of COVID-19 in our families, communities, and organisations. At this time, all of us recognise many organisations may need to shift from in-office work to working from home.

In order to equip users with the digital skills they need to face this unique challenge, Nulia has partnered with Microsoft to create this special opportunity to support our community and enable users to develop the digital skills they need to get back in their natural flow of work, from anywhere.

Together, let's enable your organisation to unlock the value of Teams.
